

# Products for Aluminum Industry

## List of Products

### Alloying tablets:

- HOESCH alloying Tablets 75/80/85 (%) Cr, Mn, Fe, Ti, Cu, Ni, with or without flux.

### Master Alloys:

- Aluminium based alloys with zirconium, vanadium, titanium, strontium, silicon, nickel, manganese, magnesium, iron, copper, boron, antimony (Other master alloys on request). Type of delivery to be arranged.

### Grain Refiners:

- AlTi5B.
- AlTi3B.
- Other grain refiners on request.

### Fluxes for the treatment of Aluminium:

Products for treatment of molten aluminium, DURSALIT are designed for the treatment of primary and secondary aluminium as well as the molten aluminium that is generally used for the production of alloys and semiproducts. Formats: powder, granules or tablets:

- Cleaning.
- Modification of the grain.
- Slag Removal.
- Degassing.

Potassium Aluminium Fluoride (PAF) in order to reduce the magnesium content of the melt.

## Remarks

For complete specifications, please contact us.
